WHERE IDEAS COME TOGETHER!

## IDEA DESK

Where ideas come together! The Idea desk provides a central work area for collaboration, with flexibility to offer a space in the middle for power and data capability. The Alumni Idea desk was developed as a tool for students and teachers to implement common core learning concepts. It can be arranged in collaborative groups or traditional rows. In its ideal group configuration of 5, the Idea desk was designed to maximize the use of limited space commonly observed in today's classrooms. Optional casters make this desk mobile and easy to move into multiple configurations. These desks can then be pulled apart for individual study or testing purposes. Full-frame construction takes the wiggle out of learning.

IDEA CENTER  
INCLUDED WITH  
EACH SET OF  
5 IDEA DESKS
